Tropical Science

Volume 26, 1986

CONTENTS

Number 1

1 Deterioration of individually wrapped and non-wrapped bell peppers during long-term storage
W. R. Miller, L. A. Risse and R. E. McDonald

9 Film wrapping mangoes at advancing stages of post-harvest ripening
W. R. Miller, D. H. Spalding and P. W. Hale

19 Phytotoxicitic effects of some eucalypts on food crops, particularly on germination and radicle extension
A. B. I. Igboanugo

25 Storage insects of basic food grains in Honduras
T. Hoppe

39 International maize genotype-environment study: natural aflatoxin occurrence
M. S. Zuber, L. L. Darrah and E. B. Lillehoj

45 Pulping properties of regrowth *Anthocephalus chinensis and Macaranga hosei* from Sarawak forests
A. F. Logan, V. Balodis, Y. K. Tan and F. H. Phillips

59 Hydrocyanic acid hazard during large scale cassava processing
I. A. Akinrele

Number 2

67 Evaluation of a heat-shrinkable copolymer film coated with imazalil for decay control of Florida grapefruit
P. W. Hale, W. R. Miller and J. J. Smoot

73 Light distribution inside diffuse-daylight seed potato stores
E. McGee, M. C. Jarvis and H. J. Duncan

79 Nepalese 'allo' (*Girardinia*): improved processing and dyeing
A. J. Canning and J. H. S. Green

83 Content and availability of nutrients in rubber seed meal
Emmanuel Nwokolo and Maurice Akpapunam

89 The pulping of *Pinus* species grown in native tropical habitats
E. R. Palmer

101 Cowpea flour performance in akara and moin-moin preparations
P. O. Ngoddy, N. J. Enwere and V. I. Onuorah

121 Polyphenol oxidase activity and chemical composition of some important Indian varieties of chillies (*Capsicum annuum*)
K. L. Bajaj and G. Kaur

129 The economics of coffee adulteration in Bolivia
J. G. Copestake, G. Thiele and J. Farrington

Number 3

135 An assessment of damage to stored fish feeds by *Tribolium castaneum* and *Rhyzopertha dominica*
E. K. Sado

145 Insects and other arthropods recorded on stored food commodities in Nepal and Bhutan
J. A. Conway

163 Analysis of eggplant varieties for enzymes related to their organoleptic properties
R. Aluko and G. H. Ogbadu

173 The response of retted jute fibre to different pulping processes
Tin Tin Yee

187 The susceptibility of varieties of groundnuts to infestation by *Tribolium castaneum* during storage
G. N. Mbata

197 Variations in rice associated with kernel thickness. I. Chemical composition
J. I. Wadsworth and J. Matthews

Number 4

213 Biochemical changes during the preparation of fish sauce using sardines
M. Riaz, R. Fatima and R. B. Qadri

223 Effect of heat treatment on selected functional properties of cowpea flour
N. J. Enwere and P. O. Ngoddy

233 Community structure and feeding ecology of birds at a grain store in Punjab (India)
H. S. Toor, H. Kaur and M. S. Dhindsa

249 Review: Lesser-known fermented plant foods
K. E. Aidoo

259 Organization profile. TDRI: research and development for developing countries
K. M. Fullarton and E. M. Thain

275 Post-Harvest Bookshelf

283 News

285 Author index

287 Subject index
